

## OUR CHILD PROTECTION POLICY - 2024 -

Aqua Mirage Marrakech Management, aware that the commercial and sexual exploitation of minors and sexual exploitation of minors throughout the world is a problem that affects the tourism industry, expresses its willingness to comply with the Code of Conduct for the Protection of Boys, Girls and Adolescents from Sexual and Commercial Exploitation in the Travel and Tourism Sector, and confirms its commitment to the criteria of this Code of Conduct:

**Establish** a company policy against the commercial and sexual exploitation of minors in the travel and tourism industry and in any other sector within our reach.

**Train** our staff to understand why safeguarding children's rights is very important and that it is the responsibility of all employees to protect children from risks within our hotel, but also in our everyday lives.

**Introduce** a special clause in contracts with our suppliers and service providers that expresses our rejection of the commercial and sexual exploitation of minors.

**To communicate** all information on this subject to guests by means of appropriate signage and via our website.

**Report** any incidents or unusual behaviour to the local authorities or child protection agencies.

**Draw up** an annual report on the implementation of these points, with the aim of eradicating the problem by incorporating the elements of our social responsibility policy:

- Promote human rights, and in particular children's rights.
- Condemn and reject all forms of exploitation of human beings, particularly of a sexual nature or when it affects minors.
- Adopt preventive measures to prevent the circulation or development of tourism programmes that promote or encourage any commercial or sexual exploitation of minors.

Our zero tolerance policy on the commercial and sexual exploitation of minors has been communicated to all our staff. It is also available to our customers, employees and service providers.
